The Malaysian
Insurance Institute
(AMII)**

**About
AMII**

The Associateship of The Malaysian Insurance Institute (AMII) is an exclusive professional qualification programme designed to meet the current and future needs of the insurance business and industry. As a flagship programme, AMII will enable you to make a positive impact in the insurance industry of Malaysia and the Asian region, while also providing you with an amazing opportunity to enhance your career prospects. Through the designation, you will develop significant transferable skills that are sought by employers in several industries such as insurance, finance and education.

Recognised by CII and ANZIIF

HRD Corp registered and claimable programme

Preferred qualification for insurance management roles

Enhanced syllabus with skillsets of the future for the adaptive workforce

Content & delivery include assessment, coursework, case studies and exams

The prestigious designation is a benchmark for qualification among insurance professionals and helps your company attract high quality employees

**A
QUALIFICATION
WITH EXCEPTIONAL
VALUE TO THE
INSURANCE
INDUSTRY**

Route to industry professionalism

Offer a way for professionals to acquire and demonstrate new skills and knowledge.

Realize career goals

Encourage learners to keep pursuing their professional goals and give them a sense of accomplishment along the way.

Personalised and flexible learning path

Learners can select short-form micro credentials tailored to their career goals and responsibilities. This will help learners be better prepared to upskill or reskill in the future.

Bridge to complement long term programmes

Aid learner retention, keeping learners motivated and engaged on their way to completing a programme.

Path to multiple accomplishments in one programme

Employees can develop a portfolio of marketable skills by acquiring micro credentials while completing their qualifications/certification programmes.

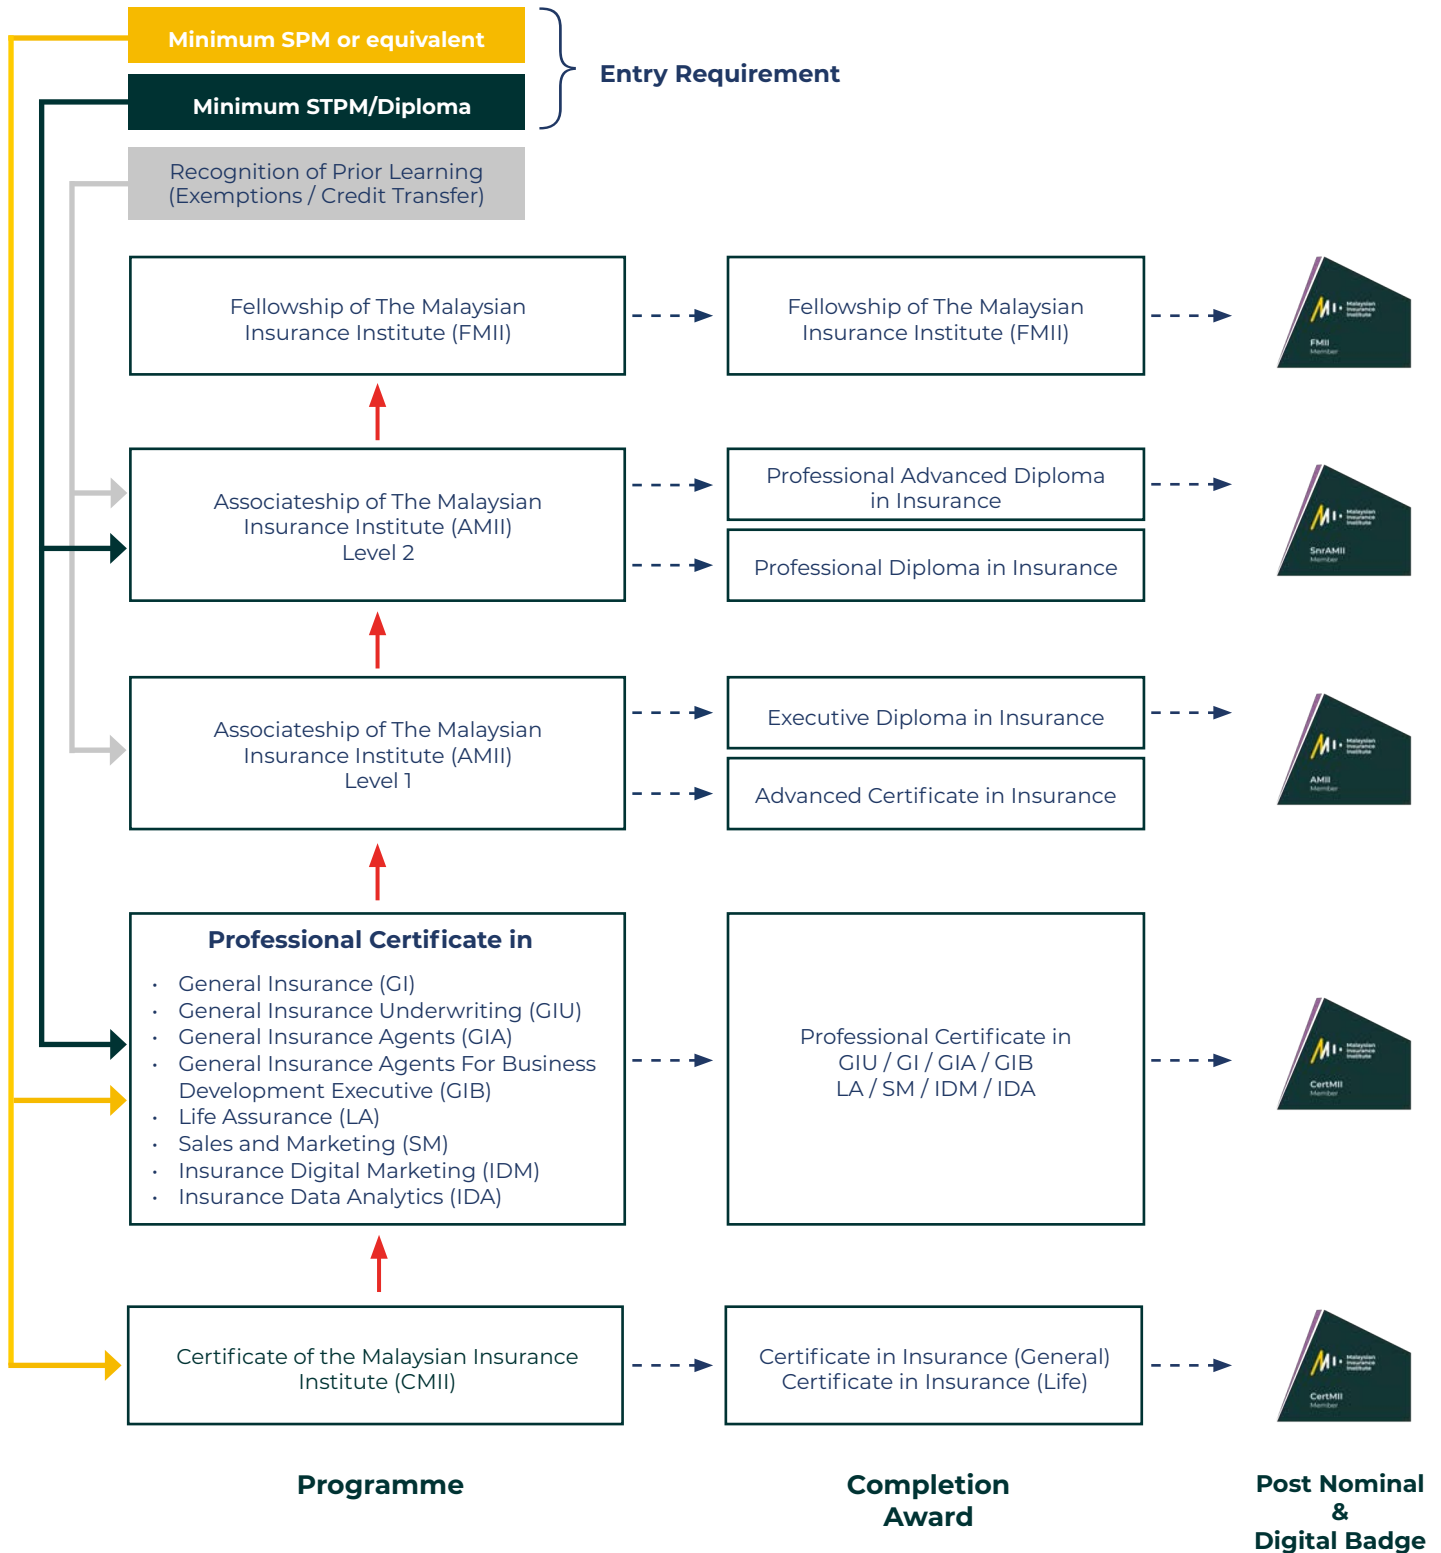

Route to industry professionalism

Promote specific and relevant knowledge in the quickest way possible, and employees get to acquire and demonstrate mastery of practical and applicable skills.

The AMII offers a clear and simplified pathway that illustrates the learner's progression and the outcomes achieved throughout the learning journey.

MII QUALIFICATIONS PATHWAY

- Engineering Insurance
- Marine Hull and Aviation

I joined the insurance industry with very minimal knowledge and that made me start the quest for a structured learning programme which covers the industry supply chain. The search led to AMII a program that enables, upon completion, understanding of every important aspect of the industry. AMII incorporated flexibility, which allows choosing electives that suits individual needs. AMII exposes individuals to common terminologies and understanding that helps to connect various stakeholders. AMII has provided the required solid foundation.

Lee Chin Hon

I am glad that I decided to do the AMII Professional Program with MII as it has given me renewed enthusiasm towards my career. This program plays an important role for me to build professional path of my career ladder in my organisation and the Insurance industry. Syllabuses are well levelled and simplified for better understanding and is in accordance with the practice of insurance guidelines. Thank you to the MII management and the lecturers for having this program and administering it very well.

Anitha Nadesan

Completing AMII with MII has been an astounding journey. The compassion shown from faculty of MII were heart warming. The lecturers of MII were undoubtedly the most experienced and knowledgeable teachers I have met. MII's dedication to provide its students with knowledge and experience and the ultramodern methods used to facilitate students with the best learning experience was profound. AMII course is designed to accommodate for fresh out of school students as well as field experienced individuals or anyone who is interested to choose Insurance as a carrier path.

Mariyam Nazra

I completed my AMII programme back in the year 2012, during this Programme, one of the most important thing that I have had experienced was that the Lecturers who were training us were having Immense experience and knowledge in Insurance and particularly on the subject modules. AMII Programme includes different significant Insurance modules which benefitted me during challenges at work. Therefore, I find this programme as a Game changer and I would recommend this programme.
