▶ STUDENT EXPERIENCE

Read what our MII Students have to share about their CMII experience.

“ When I was thinking how to move forward in this insurance industry, MII offered CMII course to their staff. I took this opportunity and enrolled myself for this course. This course changed my entire perception towards insurance whereby I always thought insurance is a boring subject. CMII taught me the basics of insurance and for someone who had minimal knowledge in insurance, it was a great start. So, do not limit yourself, nothing is impossible, the word itself says I am possible. Thank you.

Kohila Krishnan

“ Learning is a Lifelong Process. There is no end to education. It is not that you read a book, pass an examination, and finish with education. I learnt a lot from the CMII course, and it gave me a good and strong basic foundation to enhance my professional career and skills in Insurance. Thanks to MII, for giving me, this opportunity and I enjoyed indeed the CMII course. I am currently pursuing AMII level 1 and will continue with AMII level 2 to pursue my career In Insurance.

Chong Ju Wen

“ There is always something new to learn and our learning journey should never come to an end. Distance and age are not an excuse to stop from learning, it is about how strong your will is to step further and accomplish your goals. MII has given me an opportunity to learn and enhance my knowledge and skills. I enhanced my knowledge and built a good foundation with the CMII Programme. I gained much experience by completing the CMII course; it is fun and fruitful. I am looking forward to following up with another course to step closer towards my professional development goals.

Daphne Yong Nih Shyen

“ Started the CMII because I was eager to learn the insurance industry coupled with the realization of how big a responsibility one shoulders as an insurance agent. Completing the CMII made me question myself “Am I equipped to guide those around me to make sound decisions for them and those around them? And there it went. My journey into AMII continued.
